If a father wishes to give his son a legacy that will endure while life exists, let him send him to an institution where he can obtain a practical education, and he will have the satisfaction of knowing that he has given him what is better than houses, lands and farms or even gold or silver. These things may take wings and suddenly fly away; but this knowledge will last while life and reason exists.—*Horace Mann.*

NORMAL DEPARTMENT,

The instruction in this department will be confined almost entirely to the English Branches, the great object being to send out teachers fitted in every respect to teach the schools of our State. Every effort will be made to secure thorough study and accurate knowledge of the English tongue. To be thoroughly prepared the teacher must master not only matter but method. Normal students will be required from time to time to take charge of classes in order to learn to do by doing.

It is desirable that all students enrolling in this department shall have previously completed the Third Part of Arithmetic—Ray's Written, some Elementary English Grammar; and the usual Free School Course of instruction in Geography, Reading, &c. They will then be prepared to enter at once upon the work of such reviews in these several studies as are prescribed in the Normal Course of training.

This course is intended to embrace three years—Junior, Middle and Senior; and upon the completion of the Senior Course and an examination, equal at least to seventy-five per cent. of the questions asked upon the studies of the same, the Board of Regents will confer upon the candidate a Diploma, with the title of Normal Graduate. It is made requisite to a diploma that the student shall have good moral habits, good literary habits, a maturity of judgment, and other personal accomplishments essential to give popular, social and school success to the teacher.

The object of Free Schools is to make the youth of our country honorable and virtuous citizens, and for this work teachers should have special training. This Normal School is open to aid young men and women in this peculiar self preparation, and it is expected that all who graduate have attained commendable proficiency in this direction.

In Music such technical exercises are given as will develop and strengthen the fingers and insure a correct and clean execution, while the studies and compositions are carefully selected with a view to awakening and stimulating good taste in the pupil.

Since no successful advancement can be made until the pupil is well grounded in first principles, special attention is given to elementary instruction and the constant aim is to lead the pupil by thorough and systematic instruction to an understanding and appreciation of the best music and the proper execution of the same.

This course will require four years for completion. Should the pupil possess marked talent and great energy, it may be finished in less time.

The session for 1893-4 begins September 11, 1893, and is divided into three terms:

The Fall Term opens Monday, September 11, 1893, and continues until Friday, December 1, 1893--12 weeks.

The Winter Term opens Monday, December 4, 1893, and continues until Friday, March 23, 1894--12 weeks.

The Spring Term opens Monday, March 1, 1894, and continues until Friday, June 15, 1894--12 weeks.

ORIGIN OF THE SCHOOL.

Shepherd College was opened September, 1871, as a Classical and Scientific School.

February 27, 1872, the Legislature passed an act establishing a Branch State Normal School in the College. *This* school was or-

ganized, by the Regents, November 21st, 1872; but owing to changes in the law, the Normal work was not successfully begun until September 7, 1873. It closes its twentieth year with the earnest of a useful, prosperous future, and the determination on the part of regents, patrons and teachers to make it "Second to none" in the State.

LOCATION.

Shepherdstown is situated on the right bank of the Potomac river. It is about ten miles from Martinsburg and the same distance from Harper's Ferry. The Norfolk and Western R. R. passes through the town, and makes connection with the main line of the Baltimore and Ohio R. R. at Shenandoah Junction, six miles south of Shepherdstown.

The grand and picturesque mountain and river scenery of the surrounding country and the various places of historic interest within a radius of a few miles make the town a beautiful and interesting home for the student. The citizens are noted for their hospitality and culture and are deeply interested in the welfare of the school. Population 1,700.

BUILDINGS.

The handsome and substantial building stands on an eminence near the centre of the town. The main building was erected by the late Mr. R. D. Shepherd of this vicinity, later wings were added and the whole building valued at \$30,000. Mr. Shepherd Brooks, of Boston, grandson of the late R. D. Shepherd, has generously donated, to the Trustees, the use of these buildings for school purposes. Under the wise and skillful direction of the Executive Committee the building and grounds are becoming more attractive every year.

Within the past year the Music Rooms have been artistically fitted up; a Reading Room furnished and its tables supplied with the best literature of the day. The effect of this valuable aid to education has been felt and appreciated by both teachers and students.

THE WORK OF THE NORMAL.

The design of the Normal School is to prepare thorough, practical, conscientious teachers for the schools of the State and students for a higher education.

This is done:

1. By giving thorough instruction in all the branches taught in the State.

2. By giving instruction in the theory and practice of teaching.

3. By giving those who desire it, instruction in Ancient and Modern Languages; the Sciences; Higher Mathematics; and Music.

Satisfactory evidence of the success of this work is in the fact

that a majority of the schools of this section are taught by Normal Graduates who have proven themselves eminently fitted for their high calling.

MORAL CULTURE.

The school is a State institution, therefore non-sectarian. There are seven churches in the town, and students are cordially welcomed to their regular services and Sunday Schools.

The Y. M. C. A. is also an active and interested agent among the young people of the College. Students are required to attend devotional exercises held each morning in Chapel Hall. The school is greatly indebted to the ministers of the town for their kindness in frequently conducting these exercises.

GOVERNMENT.

Self-government, strengthened and directed by older and wiser heads, is the government of the school. Students are required to act promptly, obey the rules and regulations of the school, and conduct themselves, under all circumstances, as ladies and gentlemen; but they are led to do these things from a sense of right, rather than that of obligation. The aim of the government is to inculcate principles of right-living and self-control, and thereby develop the true man and woman, and worthy citizen.

EXAMINATIONS.

Examinations upon all the studies are held at the close of each term. These examinations are conducted by the teachers in their respective departments, and will be either written or oral, or both combined. Wilful absence from these will not be tolerated, and no student can advance without passing satisfactory examinations in *all* the branches of his grade.

Reports of the progress, conduct and attendance of the students will be sent regularly to the parents or guardians, and they are requested to examine carefully their reports, and report to the Principal that they have been received.

LITERARY SOCIETIES.

The Parthenian and Ciceronian Literary Societies afford special advantages in Composition, Reading, Declamation, Oration, Debate and Parliamentary Ruling. These are *all* required in the regular course. It, therefore, becomes the duty of every student, entering college, to connect himself with one of the societies and become an active member. The exercises are under the personal direction of the Faculty.

TO PARENTS AND GUARDIANS.

We *earnestly* ask the co-operation of parents and guardians in se-

curing the very best results for the coming year. The *teacher* may guard the students against error, he may point out the way of right and duty; but without the earnest co-operation and vigilant care of those more closely related to that student, his efforts will, *too often*, fail. *Self activity* and *industry* on the part of the student *is necessary*, and *watchful, interested* care on the part of parent or guardian *is just as essential* to the ultimate success of that student. See, then, that *your child* be regular and punctual in attendance; that he spends a *reasonable* amount of time in the preparation of his school work; that he is provided with funds to pay promptly all necessary expenses; that he brings home his report at the close of each term, and and, if said report is not satisfactory, *diligently* inquire into the cause thereof, and *vigorously* second the teachers' efforts to raise that standing.

Attention is called to the fact, that all exercises begin promptly on the day stated in the *Calendar*.

ADMISSION.

All applicants must pass an examination in reading, spelling, arithmetic, geography, and first lessons in English grammar.

Such pupils are admitted free of tuition, on condition that they teach, after graduation, one year in the free schools of this State, at the usual compensation.
